that Brazhnikov does in the Hotel Imperial. It is quite pessible that Krylov, who has a mechanical engineering background, frequently "advises" Piotr A. Gritchin the General Director of USIA, on how to manage USIA affairs.

- 5. Krylov's Party cell within USIA consists of about 12 members. It is made up of the secretaries from the various USIA divisions as well as up to three representatives from individual factories and the USIA staff in the Tratemerhof. It includes Ivan Alexandrovich Andronov, who is CPSU Secretary for the USIA division A/O Kabel. 4
- 6. The CPSU in Division Kabel. In A/O Kabel, Andronov is assisted by four USIA officials of his division who form his executive bureau. The total membership of the CPSU in A/O Kabel is 22.
- 7. Meetings of the CPSU in A/O Kabel are held at least once a month, but frequently two or three meetings per month are ordered. The meetings are devoted to Central Committee directives, lectures on the deportment of Soviets in Austria, work discipline of Soviet as well as Austrian employees, discussion of new production plans evolved by Moscow and their fulfillment.
- 8. Attendance at Party meetings is compulsary. The interest in Party matters at Kabel is so small that members would not about at all if attendance were optional. Absences are justifiable for only the following reason.
 - Illness which, according to a doctor's certificate, confined the individual to bed.
 - b. Exceptional circumstances such as accidents, fire, temporary duty assignments to another area.
 - c. Prior excuse by the Secretary after a justifiable reason for the proposed absence has been presented and accepted.

Comment. Serious and unbridgeable differences that the Soviet High Commissioner of Austria might have with Brazhnikov, would have to be referred, in the highest instance, to the Presidium of the Central Committee for a decision.	25X1
Comment. The Central Group of Forces in Hungary sends its CPSU representatives to the Party "apparat" in Hungary.	25 X 1
Comment. The existence of Less as a separate unit in Brazhnikov's CPSU "apparat" is based on its geographical expanse and does not alter the fact of its subordination to the General Director of USIA on other matters.	25 X 1
Comment. Andronov is the General Director of Osram A.G., which is a firm in A/O Kabel.	25 X 1
